ADOPTER SURVEY FINAL (1-21-15)

INTRO This survey is about how and why people consider getting solar panels for their home. Solar panels use energy from the sun to allow households to generate their own electricity. The survey also asks about your opinions on the environment and energy use. This survey should take about 15 minutes to complete and is voluntary, secure, and confidential. If you are unable to complete the survey in one session, you can close it and return later using the link provided in your email.

SECTA Please tell us a little about your solar panels. If you have more than one home, please answer about your home with solar panels. If you also have a solar water heating system, please limit your responses throughout this survey to your electricity-producing solar panels.

Q1 Do you have solar panels that generate electricity at your home?
- Yes (1)
- No (2)
- Have signed a contract for solar panels, but don't have working panels yet (5)
- Have solar panels installed, but they aren't working now (3)
